Bowser opened by stating all FAA Grants require a 10% local share. Burns asked about the \$1.4M FAA funding for 2025 that was stated in Bowsers previous report. Bowser states that is available but also requires a 10% local share. The Airport Runway Overlay Project including engineering costs would be an estimated \$2.5M project requiring \$250,000 local share. The preliminary engineering will start in 2024 with an estimated cost of \$150,000. FAA funding will pay for \$135,000 with a \$15,000 local match. Bowser will apply for a Montana Aeronautics grant however it may only cover half of the local share. Bowser stated that when the grant is applied for, the Airport can state in the application, a minimum monetary requirement needed to complete the project and without that amount the project would not be able to move forward.
